BUSINESS CHANCE.

RATES ON GRAIN AND GRAIN PROD-UCTS TO BE ADVANCED.

Revised Schedules Filed with the Interstate-Commerce Commission-General Railway News.

Official notice of an increase of 21/2 cents per hundred pounds in the freight tariff on grain from Chicago to New York was filed with the Interstate-commerce Commission yesterday. The new grain freight basis which will be observed by the lines east bound out of Chicago and other points and profits, for a term not exceeding seven years, of the following real estate in Marion county, and north of the Ohio is 20 cents per hunand north of the Ohio is 20 cents per hundred weight. This increase in the grain schedule usually follows the closing of

navigation on the great lakes. This rate applies to the domestic freight on grain and grain products. The export rate is advanced from 15 cents to 171/2 cents. except that the rate on export grain consigned to a vessel is advanced from 131/2 to 16 cents. The new tariff will be effective Dec. 8. The Interstate-commerce Commission

yesterday announced its decision to reopen the case of the Business Men's League of St. Louis against the Atchison, Topeka & Santa Fe Railway Company and other lines. A further hearing will be held at St. Louis, Feb. 10 next. The commission holds that a showing of less distance and former graded rates does not warrant an order requiring lower rates from St. Louis. Chicago and other interior points than from New York on traffic carried by rail to Pacific coast destinations. While the commission does not condemn the tariff as a whole, many of its details are decided to be unlawful. In this traffic from the middle West to the Pacific coast territory the commission decides that a differential as between carloads and less than carloads, which is at more than 50 cents per 100 pounds and more than 50 per cent. of the carload rate, is prima facle excessive. The complainants in the case are granted leave to proceed in that branch of the case involving the question whether on traffic from the middle West the present rates to intermediate points which are higher than those to Pacific coast terminals are

The Outlook for Dividends.

The Wall-street Journal, whose estimates are always carefully made, in speaking of the probable effect of wage increases upon dividends to owners of stock in dividend-paying roads, after stating that it finds the average net increase in earnings for the past year to have been about 2 per figure the increase in wages at 10 per cent. as some of the roads had previously made advances in their pay rolls which offset to some extent the effect of the 10 per cent, advance. As we pointed out some days ago, the increase in wages will amount to a charge against dividends of not over 2 per cent. Estimating increase in revenue from prosperous traffic at 5 per cent, and deducting 2 per cent for increase in wages we shall have 3 per cent. left to go toward dividends. The projected increase in freight rates is not likely to be uniform nor do the roads expect to make the advance immediately effective. It will probably be near the ultimate result if we estimate the average increase at 10 per cent. Taking freight revenue as 70 per cent, of all revenue we find the effect of a 10 per cent. rate advance when coupled with the increase in business to be not less than 3 per cent. applicable to dividends, after providing for | Big Four, after making a trip over the the advance in wages. So that, even if the | Cincinnati division wrote a polite letter to | Evansville roads do not materially advance freight a farmer requesting him to remove a hog Springfield, ill

rates, they are earning enough to more than make up for the extra charge against will be providing against a decrease in gross earnings in the future, should traffic

learn the barber trade; years saved by our Immigrant Traffic War Probable. method of free work; expert instructions, etc.; Present indications point to a war

> among Western lines over immigrant traffic. The traffic men of the passenger decago yesterday with Commissioner Wadleigh and Chairman McLeod, of the Western Passenger Association, in an effort to reach a settlement. The meeting was called because of the impression that arbitration could be brought about or the lines interested could be induced to dip a bit deeper into their pockets and give the Rock Island the recognition for its El Paso line which Mr. Sebastian thinks it should have. It is understood that the Rock Island is standing out for 10 per cent. of the revenue between the Kansas City and El Paso divisional points. On the other hand, the officials of the Rock Island are said to be willing to leave the matter to arbitration. When the conference met it was found that the Southern Pacific was unwilling to submit to arbitration and some of the lines did not care to contribute a sufficient amount of their present shares to make up the percentage demanded by the Rock Island. The Santa Fe also is said to be adverse to arbitration. A committee was appointed, consisting of Passenger Traffic Managers Sebastian of the Rock Island, George T. Nicholason of the Santa Fe and E. O. McCormick of the Southern Pacific, who were instructed to try to reach a common basis and report to the advisory committee of the bureau the result of their efforts. Against the Big Four.

The Nickel-plate Railroad and the Baltimore & Ohio have been sustained in their contention that the Big Four has no right for a differential rate on western-bound business out of Cleveland. This decision was reached by P. S. Eustis, passenger traffic manager of the Burlington, who was called in as arbitrator.

Union Pacific's Pension System. Rules and regulations for a pension system, which will go into effect Jan. 1, 1903. have been completed by officials of the Union Pacific Railroad by which its old employes will be retired on pension. It is expected that the system will involve the

General Notes.

annual distribution of over \$300,000.

Thanksgiving travel on the local lines was scarcely up to expectations. C. L. Stone, of Louisville, general passenger agent of the Louisville & Nashville, was in the city yesterday. There is a report current in the East that Mr. Gould has declared his intention to resign from the Union Pacific directorate. A report comes from Pittsburg that the Pennsylvania Company will at once move to have the Vandalia receivership dissolved | blockade at Pittsburg and further west,

George D. Sawyer, of Detroit, has been appointed general passenger and freight agent of the Lake Erie, Alliance & Wheeling Railroad. The earnings of the Big Four for the third week of November were \$403,182.13,

on Jan. 1.

an increase over the earnings for the corresponding week in 1901 of \$14,682.53. The Pittsburg, Bessemer & Lake Erie will expend \$2,000,000 in improvements. The greater part of this sum will go into relaying and double-tracking the line. It is reported that W. C. Arp, master mechanic of the Vandalia, is to be made superintendent of motive power of the Pennsylvania system west on Jan. 1. The Railroad Commissioners of Maine have authorized the Boston & Maine Railroad Company to issue 10,000 additional shares of stock of the par value of \$1,000,-

Of the twenty-eight roads reporting for the third week in November twenty-four show an aggregate increase of \$789,212, and four show decreases aggregating \$44,-322. Net increase of the roads reporting. \$744,890, or 11.82 per cent.

The Wall-street Journal has reports from 131 roads of earnings for the quarter ending Sept. 30. These show gross earnings to have been \$353,008,211; net, \$117,867,975, as compared with a gross of \$340,441,115 and a net of \$122,968,947 for the preceding year. The Columbus Dispatch of yesterday says

the bad weather of the preceding day demoralized train schedules generally. Trains reached that city from one to three hours late. The Big Four train from Cleveland was the only one that arrived on time. N. T. Herr, Santa Fe master mechanic at Fort Madison, Iowa, sent his resignation to the general officers yesterday. He has accepted service with the Norfolk & Western road. J. H. McGoff, of the Northern Pacific, will assume the vacant position Dec. 1. The Wabash is purchasing large tracts of coal lands along its proposed line in West Virginia, the contract for the construction of which has just been let. The new line crosses the Ohio river at Parkersburg and enters the most valuable coal

lands of West Virginia. Contracts have been placed with the various rail mills during the past few days for an aggregate of about 100,000 tons of rails. Some of these orders cannot be filled short of a year. The demand for

bridge material is as great as that for The statement of the L. & N. for the third week of November shows the earnings to have been \$694,395, an increase of \$70,520 over those of the corresponding week in 1901. The earnings for the three weeks were \$2,078,910, a gain of \$185,935. The earnings from July 1 to date were \$13,-

480,151, a gain of \$1,627,424. The last four reports of the Wheeling & Lake Erie show slight increases in earnings, but greater increases in operating expenses, the aggregate decrease in net for four months being \$77,017. The report for the last fiscal year is not yet out, but it is not believed the road has earned more than 44 per cent. on its preferred stock. As the executive officers of the Eastern honey, chairman of the pass agreement committee of the Western roads, gives notice that its adjourned meeting, which was to have reassembled in St. Louis on the 2d, has been postponed indefinitely. The Burlington is pushing work on a new line between Des Moines and Oskaloosa, which will furnish a more direct line into Des Moines than via Alba. It is the intention of the company to put on a through service between Des Moines, Burlington, Chicago and St. Louis, which will materially shorten the time between the

various cities. John K. Bennett, who has been district superintendent at Buffalo for the Pullman Company since 1876, said to a reporter that the shops in that city had just received an order for forty cars. He added: "We have eighty stalls at the shops and all are filled with new or repair work. There are 1,400 men employed at the shops here, and soon we will increase that number to

1.800 M. K. Barnum, superintendent of motive power of the Nebraska division of the Union Pacific Railroad, with headquarters in Omaha City, has resigned to accept a position of assistant general superintendent of motive power of the Southern Railway. His resignation takes effect Dec. 10, at which time he will leave for the South. He has been with the Union Pacific road for tweive years. Construction work on the Des Moines,

lowa Fails & Northern is being pushed

forward with the expectation of reaching

The intention of the new company is to ex-

Des Moines within the next two months.

tend its line from Des Moines to a crossing of the Illinois Central at Charles City. Although the ultimate destiny of the road is not clearly known to the public, the impression prevails that it will become a part of the Illinois Central system. The October statement of the Chicago & Eastern Illinois shows a gain in gross earnings of \$141,190, and a gain in net of \$65,621. The surplus for the month was increased \$63,851. In the fiscal year ending June 30 the company earned 14.4 per cent. on its common stock, after allowing for the 6 per cent, on the preferred. Judging by the fact that the surplus for this year

earning nearly 17 per cent. on the common The monthly report of the voluntary relief department of the Pennsylvania lines west of Pittsburg for October has just been submitted by Superintendent Thayer. Under the head of death benefits there were nine cases of accident with an attendant outlay of \$5,250., and fifteen cases from natural causes with an outlay of \$11,000. Under the head of uisablement benefits there were 817 cases of accident with an attendant outlay of \$11,471.25; and 727 cases of sickness with an attendant outlay of \$9,962.40. The total number of cases cared for during the month was 1,568 and the tetal outlay was \$37,623.65. A story comes from Springfield, O., to the effect that President Ingalls, of the

pen which was unpleasantly close to the company's right of way. The farmer could earnings by reason of the wage advance | not make out the writing and showed it and if they advance freight rates they to a Big Four employe who was equally puzzled, but expressed the belief that it was a pass. The farmer took him at his word and made several trips on it before its real purport was discovered. The story is a pretty good one, but very old, as well, having been told on Dean Richmond, of the old New York Central, many years before Mr. Ingalls came to the Big Four.

The New York Commercial Advertiser, ommenting on the recently effected lease of the Manhattan Elevated to the Interborough Rapid Transit Company, says: "Through the lease of the Manhattan Railway property the Belmont interests will be the great power in transit affairs in this city. It now remains only to bring Metropolitan Street-railway system into arrangement with the subway and elevated systems, practically to unite all the traction facilities in Manhattan. traffic arrangement now exists between the elevated system and the old Third-avenue Railway, which three years ago was acquired by the Metropolitan. That some arrangement will ultimately be effected that will make the elevated, underground and surface lines practically one system, has been often predicted."

COLD WEATHER HELPFUL

TRADE EXPANDS RAPIDLY AS THE TEMPERATURE GOES DOWN.

Collections Good Except in Spots-Iron and Steel, Cereals and Textiles-Weekly Bank Clearings.

NEW YORK, Nov. 28.-Bradstreet's tomorrow will say:

Warm weather has been, and in some sections is, the only apparent drawback to distributive trade, but lowered temperatures and early holiday buying have tended to minimize this deficiency. That a large, in fact, unprecedented holiday demand will develop is confidently predicted, all parts of the country sending this report. While weather-dulled retail trade has affected orders from Western jobbers, wholesale trade as a whole is in excess of a year ago, and comfortable increases are expected to be finally shown in nearly every department of trade. General industry is active the country over, manufacturers and producers being still urgently pushed to deliver on orders booked some time ago. Some improvement is noted in LOCAL WHOLESALE TRADE the transportation congestion, largely because of special efforts made to break the but the car shortage is still a matter of worriment to the railroad men and to merchants and dealers whose goods are delayed thereby. The influence of last year's crop shortages is gradually disappearing. Lower prices for cereals, provisions and finished iron and steel give hope of better export trade and the possibility of cutting down some of the unfavorable balance shown earlier this year. Collections are, in a majority of cases, still good, exceptions noted being the effect of mild weather in the Northwest and too much rain in Texas There is a rather more cheerful tone in the iron trade, partly the result of improvement in fuel supplies at the West and partly the result of larger buying at the East. Little or no improvement in the coke shortage in that immediate district noted. Finished products are firmer tone. This is a dull season usually in the iron trade, and with the quieting down has come some talk of cutting prices at the West, but confirmation of these reports is generally lacking. The eagerness of consumers to get supplies, added to the reluctancy of sellers to engage for deliveries any further ahead than 1903, is taken to ndicate that next year's business will be

Cotton goods feel the stimulating effects Specialties in imported cottons are active with jobbers, mercerized products especially so. The wollen mills are kept actively employed, those engaged on men's wear being particularly so. The strength of raw wool is unabated, the latest London sale showing a higher range, while foreign wools are sold here now at lower prices than new woolens can possibly be exported

Wheat, including flour, exports for the week aggregate 4,179,685 bu, against 5,277,-672 last week, 5,117,478 in this week last year, and 2,497,880 in 1900. Wheat exports since July 1 aggregate 111,042,009 bu, against 127,-818,726 last season and 77,790,267 in 1900. Corn exports aggregate 255,174 bu, against 243,381 last week, 630,968 last year and 4,801,-000 in 1900. For the fiscal year exports are 2,707,337 bu, against 19,153,817 last season and 74,681,561 in 1900. Business failures in the United States for the week number 180, as against 201 last week, 189 in this week last year and 184 in

R. G. Dun & Co.'s Review. NEW YORK, Nov. 28 .- R. G. Dun & Co.'s

weekly Review of Trade to-morrow will Weather conditions have provided the only important developments of the past week in the business world. Excessive rains in some sections, notably the Southwest, facilitated the distribution of heavy footwear, overshoes and kindred kinds, while seasonably low temperatures at other points increased the movement of winterwearing apparel. These influences, together with a large Thanksgiving trade in food products, stimulated retail dealings very materially. Jobbing and wholesale trade is fully maintained, and manufacturing plants have orders far ahead, but ir some places the car shortage retards operations. Railway officials are making every effort to relieve the freight congestion, especially in the vicinity of Pittsburg, but thus far there is little evidence of improvement. Gross earnings are fully maintained for November thus far, exceeding last year by 6.3 per cent., and those of 1900 by 16.4 per cent., while it is anticipated that higher freight rates will offset the advance in wages, sustaining net earnings. Inquiries for pig-iron become more urgent as the scarcity grows more acute. Furnaces are added to the idle list when there is full occupation for every plant in the country, but the fuel shortage is not perceptibly improved. Fuel commands high premiums according to the needs of consumers, and iron is similarly held at an abnormal position by the insufficient supply. The pressure is less severe in the vari ous finished lines, aside from structural steel and railway equipment. Numerous projected additions to mileage, improved terminals and increased rolling stock insure activity at the shops for months to come. Machinery houses, boiler works and makers of heavy hardware are all far behind with orders, and practically every section of the iron and steel industry is

entirely in control of sellers, prospective purchasers having to make all the conces-A distinctly firmer tone pervades the market for footwear, orders coming forward freely for spring goods. The leading shoe manufacturers have taken large lots of leather, especially hemlock sole, giving a firmer tone to the market and reducing the stocks. Foreign dry hides are in limited supply and well held. Failures for the week number 213 in the United States, against 182 last year, and 16 in Canada, compared with 25 a year ago.

GAIN OF 37.5 PER CENT.

Bank Clearings at Indianapolis This Week \$10,434,231.

GENERAL CONDITIONS ARE RE-PORTED VERY SATISFACTORY.

The Movement in Dry Goods and Groceries Quite Brisk-Country Produce Very Firm. There was considerable activity in the dry goods trade yesterday, and all indica-

tions point to a greater volume of business as the season advances. Grocers had about as much as they could conveniently attend to in filling orders. Trade in this department has held steadily good throughout the fall season, and there are no present indications of a falling off. Country produce is in only moderate supply, and the market retains the firm tone that has characterized it for the past two weeks. On Commission row, yesterday, as is usual on of higher prices for the raw material. a day following a holiday, there was very little doing. In all other lines there is no change of conditions or prices-steadiness

Indianapolis Grain Market.

being the chief characteristic of the mar-

Business was quiet at the Board of Trade yesterday. There was nothing doing in wheat, and quotations are nominally the same as those prevailing on Wednesday. Corn is again lower, white of all grades going off 1/2c. Oats are unchanged, with no offerings yesterday and little inquiry. Hay is steady at Wednesday's prices. The secretary of the Board of Trade gives quota-

tions as follows for track offerings: Wheat-Market unchanged. No. 2 red, 73c; No. 2 red on milling freight, 73c; No. 3 red, 69@71c; wagon, 72c. Corn-Market closed steady. No. 1 white, 44c; No. 2 white, 44c; No. 3 white, 44c; No. 4 white, 40@42c. Oats-Market quiet. No. 2 white, 32%@ 331/4c; No. 3 white, 321/6/321/4c; No. 2 mixed, 301/2@31c; No. 3 mixed, 30@301/4c. Hay-Steady. No. 1 timothy, \$12.25@12.75; No. 2 timothy, \$11.25@11.75. The inspections yesterday were as fol-

lows: Wheat-Rejected, 2 cars. Corn-No.

3 white, 23 cars; No. 4 white, 1; No. 3 white

mixed, 4; No. 3 yellow, 1; No. 2 mixed, 4; No. 3 mixed, 10; ear, 2; total, 45 cars. Oats and hay, none. WAGON MARKET. There was a liberal amount of corn and hay offered on the wagon market yesterday, and all offerings changed hands early -not more than three or four loads of hay remaining in the yard at noon. Quotations
